Sir/ Madam

Sub: Mini Projects/Live Projects for Your 3rd Year and 4th year Students with Internship of six months - Reg.

Greetings from **COMPANY NAME**

We would like to introduce ourselves as **COMPANY NAME**, a leader in providing quality training and software solutions in high-end latest technologies. **COMPANY NAME** was established in the year 2019 with an objective of empowering Individuals and Enterprises with knowledge of Emerging Technologies to bridge the gap between Academics and Industry. Currently **COMPANY NAME** operates as three strategic business units focusing on IT Training, IT Services and IT Staffing. We have the record of training millions of students in a span of 1 years in high- end platforms.

COMPANY NAME, at all times ensure excellent quality in delivering its services through its team of well qualified, industry drawn Trainers, best teaching methods, customized course material and extensive hands on training.

Please find enclosed our Company Profile for your ready reference. To know more about us, you can visit our URL: www.COMPANYNAME.com.

COMPANY NAME offer Mini/ Live Projects along with Internship of six months to the B Tech, M Tech, M.Sc Computers, BCA, MCA and other Engineering Students to accomplish their Academic requirement and acquire real time software development experience. We also undertake M.Tech projects publishing in all Journals. We would like to offer same in your college premises as In Campus Training along with Live Projects to the students combined with real time exposure in our Software Development Organizations. We here by highlight the main points of InCampus Training.

1. Students shall be provided with intensive training on latest technologies such as .net, Cloud Computing, Java /J2ee etc in college premises by deputing Expert Trainers from **COMPANY NAME** for 30-45 days.
2. Students are provided with list of Live Project Abstracts wherein they can choose the best project in consultation with their academic head and they can go through the complete life cycle

(SDLC) under the supervision and guidance of our Project Guides who shall visit to the college premises on scheduled dates.

3. Students are awarded with Course Completion Certificate for Training undergone and Live Project completed. They shall also provide with letter of Internship for six months period

4. InCampus Training shall facilitate cost saving to the students (no travel charges, hostel charges etc). Parents also feel secured that their wards are doing project in their own colleges.

5. College management can also look this option as a business opportunity as their infrastructure is being utilized for multiple purposes.

6. The major advantage is that the program delivery can be directly monitored by Principal and Academic Heads.

7. All Students undergone training with us can also register with our Placement Assistance Cell so that they can be offered placements with our clients.

Keeping in view of all above we would request to give us permission to meet your principal and discuss the proposal of our InCampus training model and revenue sharing with college management.

We look forward to your cooperation and request to extend us the opportunity to render our services to your students.

Thanking you.

Yours truly,
For **COMPANY NAME**
